SOLARFOX®

QUICK START GUIDE

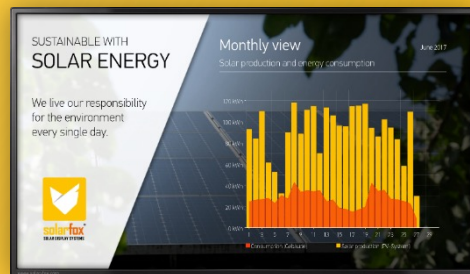

1. REGISTER YOUR DISPLAY

2. ADD YOUR PV-SYSTEM

3. INSTALL THE DISPLAY

4. CONFIGURE LAN / WIFI

5. SETUP YOUR DISPLAY

STEP 1

REGISTER YOUR DISPLAY

- ✓ On your browser (Chrome or Firefox recommended), enter <https://setup.solar-fox.com>.
- ✓ Register using the **serial number** of the specific display: (begins with SFD).
- ✓ Complete the registration steps.
- ✓ After registration you will receive a **DSP-Code** and **Password**, which will be required later when installing the display on site.
- ✓ Additional displays can be registered on the same account by pressing the "+" symbol near to the list of Displays on the left-hand side whilst logged into the portal.

QUICK START GUIDE

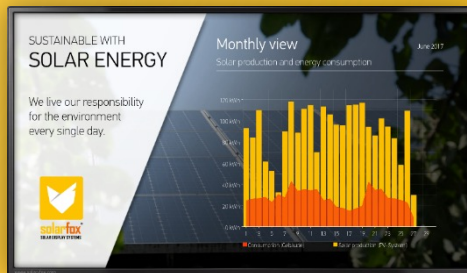

1. REGISTER YOUR DISPLAY

2. ADD YOUR PV-SYSTEM

3. INSTALL THE DISPLAY

4. CONFIGURE LAN / WIFI

5. SETUP YOUR DISPLAY

STEP 3

INSTALL THE DISPLAY

- ✓ Unpack and carefully place the SOLARFOX® Display face down on its box.
- ✓ Detach the wall-mount plate to measure and mark the points for drilling.
- ✓ Secure the wall-mount plate to the wall.
- ✓ Find the power supply for the minicomputer with the right adapter for your region.
- ✓ Hang the display onto the wall and plug in the connectors.
